

CLE-LINE®

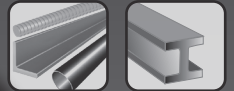

Carbide Tipped Reciprocating Saw Blades

NEW

**MADE
IN THE
U.S.A.**

Up to 50x longer
life than a standard
bi-metal blade!

Made for thick metals 3/16" to 1/2"
Cleaner, Faster Cuts

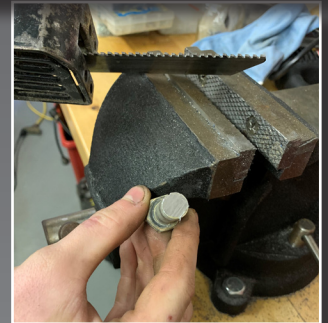

Provides increased productivity with fewer blade changes versus a standard bi-metal blade.

Features and Benefits:

- Cuts faster / lasts longer than a traditional bi-metal blade
- Carbide teeth stay sharp
- Faster cutting without binding
- Less vibration
- Straighter cuts

Recommended for:

- Metal Alloys; Cast Iron; Stainless Steel; Steel Plate; Threaded Rod; EMT Conduit; Ferrous Metal; Steel Studs; Rubber; Black Iron Pipe; Rebar and Angle Iron

Packaged one (1) per tube
